

Stanislav Revasevych

Middle Software Engineer · Full Stack

Ukraine, Lviv revasevicstanislav@gmail.com +380681343808 [Github](#) [Portfolio](#)

ABOUT

Middle Software Engineer with hands-on experience across the full software lifecycle: designing systems and making architectural decisions, building web applications and internal tools with React, Next.js, TypeScript, Node.js, NestJS and PHP Laravel, testing end to end, and containerising and deploying to production. Delivered a CRM system for a retail business and e-commerce and education platforms for clients. Learns new technologies quickly in real projects (Atlassian Forge, Laravel) and is comfortable working on large projects and communicating with large clients.

E2E Testing

WORK EXPERIENCE

Insiders Software — Middle Software Engineer

IT company · Lviv, Ukraine · insiders.software

Aug 2026 – Present

- Delivered software and systems end to end, covering design, development and end-to-end (E2E) testing.
- Containerised applications and deployed systems to production environments.
- Quickly adopted new technologies on real projects, including the Atlassian Forge framework and PHP Laravel.
- Designed system architecture and made key technical decisions.
- Developed internal tools for the company.
- Took part in negotiations with large clients and contributed to large-scale projects.
- Continuously studied new tools and practices to stay up to date.

Kuzco Shop — Full Stack Intern/Junior

Nov 2024 – May 2026

- Developed and maintained an internal CRM system for order, inventory and client management.
- Built and integrated REST APIs between frontend and backend services.
- Worked within a production-grade backend codebase, contributing to architecture decisions.
- Collaborated closely with a senior developer on application architecture and backend development.

PROJECTS

Fluffy Steps

E-commerce shop for home clothing. Features Monobank checkout integration, automated Nova Poshta delivery, customer registration system, admin panel, and a fully custom-designed storefront UI.
